## **PROGRAM ABSTRACTS & LOGIN INFORMATION:**

Monday, June 3 (1-2 pm)

### **Designing a Learning Ecosystem for the Modern Learner (Training Industry)**

Join us for this complimentary webinar, sponsored by O'Reilly Media. Karen Hebert-Maccaro, O'Reilly's chief learning experience officer, will share how to build a learning ecosystem that meets the needs of the modern learner. In this webinar, we will discuss: How to segment your audience to avoid a one-size-fits-all learning approach (spoiler: functional and organizational level segmentation is not enough); When to buy versus build learning solutions and resources; Why modality matters to the learner; How to measure impact and build an internal learning narrative; Ideas around what the future may hold for learning innovation.

Monday, June 3 (2-3 pm)

### **Counting on Kentucky: The Role of Libraries in the 2020 Census**

The 2020 Census is fast approaching, and libraries can play an important role to ensure every Kentuckian is counted! By partnering with the Census Bureau, libraries can help get the word out about the benefits of an accurate count to secure Kentucky's fair share of over \$875 Billion in funding. For the first time in history, households will be encouraged to respond to the census online from a smart phone, tablet, or desktop. Michelle Elison, Kentucky's Partnership Specialist, will highlight key dates on the 2020 Census operational timeline, discuss preparations that have already been made at the state and local levels, and provide information on thousands of good-paying census jobs that are currently available across the state.

**Bringing a Geographic Perspective to Libraries and K-12. Create. Share. Learn (Washington State Library)**

Geography matters in every organization and every discipline. For anyone trying to evaluate information, the most intuitive way to view it is on a map. In this webinar we will discuss how three agencies in Washington State are using GIS technology to bring a new perspective to learning and understanding data from the world around us. Included will be Enabling Local Government Transparency. Jason will discuss the benefits of Kittitas County's Open Data Hub, the technology and infrastructure behind it and the benefits to having data available for public access. Joanne will demonstrate the Geospatial Open Data Site at the state, [geo.wa.gov](http://geo.wa.gov), how to view the data and a few examples of using geography for state business. And Bruce will discuss how OSPI uses GIS to manage student transportation data and encourage use of GIS in the classrooms through an annual middle school/ high school competition.

**Understanding Soft Risk in Volunteer Engagement (VolunteerMatch)**

We all worry about the hard risks that can have an impact on our volunteers and the work they do, but too often we don't think about the soft risk. Soft risks are the attitudes, beliefs and actions that expose our organizations to risks. Those risks may include the actions of staff – both paid and volunteer, interactions on social media, lack of training for leaders and volunteers - leading to risky behavior, and how failing to screen for characteristics or “fit” can open volunteers and the organization up to risk. This webinar is designed to help attendees identify soft risks in their organization and give them the tools to make changes to processes and culture to minimize and address these risks.

### **Building Trust With Your Nonprofit Team (Charity Village)**

Studies show the best leaders, those who are effective and have a loyal following, have high levels of engagement with their team. Their team trusts them and respects them. As such, their team works well with the leader to serve the mission of the organization. Many leaders have no idea how to develop that level of trust and respect with their team. The way is to lead with your strength of character. However, we are often not taught though, how to develop our character.

#### **The Real Secret to Employee Engagement (Harvard Business Review)**

Employees crave feedback. Your organization's culture is the key to its success. Strategic planning is essential. Your competencies should be measured and your weaknesses shored up. Leadership is a thing. These may sound like basic truths of our work lives today. But actually, they're lies. As strengths guru and bestselling author Marcus Buckingham and Cisco Leadership and Team Intelligence head Ashley Goodall show in their book, *Nine Lies About Work*, there are some lies and faulty assumptions that we encounter every time we show up for work. Nine lies, to be exact. They cause dysfunction and frustration, ultimately resulting in workplaces that are a pale shadow of what they could be.

**Libraries and the 2020 Census (Indiana State Library)**

Civic engagement matters! As librarians, our role in the 2020 Census is amplified this time around. In March of 2020, U.S. residents will not only receive traditional paper forms from the Census Bureau, but they will also have the option of online response. Patrons can fill out the census using their home computers, their smartphones, or by stopping by the local library and using a public computer. How can we properly prepare our library communities for this new option? Librarians can learn and review the basic facts about the census; we can provide informed outreach to our library communities; and we can know where to go for assistance outside of our libraries. Tune in to this webinar to find out more!
